

The Woodhaven® Small Crescent™ Firewood Rack Instructions

All Woodhaven® Firewood Racks are Proudly Made in the USA!!!

IMPORTANT PLACEMENT: To prevent the possibility of this product tipping over, it **MUST** be placed on a hard, level surface such as concrete or heavy concrete stepping stones. NEVER PLACE THIS RACK ON DIRT OR ANY OTHER UNSTABLE SURFACE. CHILDREN SHOULD NEVER BE ALLOWED TO PLAY ON RACK.

STEP 1:

Bolt the smaller, bent bottom pieces to the outside of the larger, bent pieces using the long bolts. The bolt should go through the bottom piece first. The nuts have a built in washer that should go against the large bent piece to prevent them from working loose. (See Image below.)

STEP 2:

Bolt the support bracket to the outside of the larger bent pieces (3Places) using the short bolts. The bolt should go through the support brackets first. The nuts have a built in washer that should go against the bent piece to prevent them from working loose. (See Image below.)

STANDARD COVER: Our own unique design covers rewood the way it needs to be covered! They keep the top completely dry and ready to burn, and allow for air to flow through the rewood to reduce mold and mildew and promote curing! All of our covers t around the 4 uprights of the rack and move down as the wood stack is used.
