

10 Steps to a Well Designed Room Checklist

Making your house a home for you and your family does not have to be hard, complicated or confusing. We want to help you accomplish this by providing you with our “10 Steps to a Well Designed Room” guidelines so you can understand what you need to do to create the rooms you’ve always wanted.

You can use this information to do it yourself, or hold whomever you are trusting to accomplish this, accountable in achieving the look, function and mood that *YOU* desire, and not someone else’s vision.

1. **Function:**

What are the functions that are necessary for this room?

2. **Mood or Feeling:**

What is the mood or feeling you want the room to project? How dramatic are you willing to be?

3. **Lifestyle Strategy:**

How do you expect to achieve the mood or feeling? How does the room’s architecture influence your strategy?

4. **Focal Point:**

What was decided to be the focal point of the room? Is this acceptable to you?

5. **Traffic Patterns:**

What are the traffic patterns of the room and how will they affect the function and overall look of the room?
