

Wireless Convenience!

Honeywell's convenient, Wireless Remote Keypad can arm and disarm security systems, control lights and operate garage doors with the press of a button – from absolutely anywhere in the home! It puts convenience and peace of mind at your fingertips.

- Can be mounted on walls, placed on tabletops or hidden in drawers
- Provides convenient fingertip control of lights, garage doors and security systems
- LED flashes to confirm that signals have been sent
- Two button panic for your added peace of mind
- Sleek, super-thin design blends with any home décor
- Easily replaceable, long-life battery
